700/701

Mobile Instrument Tables

Designed to fit your room and your process.

| Same frame, lift, and features. The only decision is the surface.

700 Ultra White Kydex®

701 Stainless Steel

Two Tops. One Table.

Developed alongside the [722 and 729 Surgery Chairs](#), the 700 and 701 Tables provide a convenient, ergonomic work surface designed to keep you and your staff comfortable and efficient. Instruments and implants are positioned exactly where you need them — directly over the patient, within easy reach, while keeping the area around the chair clear. Height adjusts in seconds to suit everyone's needs, seated or standing. Dual-wheel total-lock casters smoothly roll the table into place and securely lock to keep everyone safe. Clearance also accommodates MTI chairs including the [840, 830, and 829 Series](#), plus competitive chairs.

INTEGRATED HEIGHT ADJUSTING HANDLE

Easy to access, easy to store.

The handle folds flat beneath the countertop and stays out of the work area. When height needs to be adjusted, it rotates out for quick, easy raising and lowering by a single user.

FASTER

One handle operation

The height adjusts quickly and easily by one person, while the work surface remains level throughout the entire range, keeping instruments and trays securely in place.

SAFER

Lock in place

Roll the table into position over the patient, then lock the casters.

CLEANER

Single rimmed surface

No crevices to trap debris, one wipe and it's done. The built-in rim keeps instruments from rolling off.

SPECIFICATIONS

Working surface	23" × 41"	
Height range	30.75"–48.5"	
Clearance between legs	32.5"	
Weight capacity	200 lbs	
Height Adjustment	Manual crank	
Casters	Dual-wheel total-lock	
Countertop edging	Integrated rim	
Countertop material	700: Molded Kydex	701: Stainless steel

Three accessories.

Multiple mounting options.

IV Pole

130-4502

Built-in pole mounts on either side of the table put the IV pole exactly where the care team needs it, within easy reach before and during the procedure and out of the path around the patient. Move it from one side to the other in seconds as the procedure requires.

Tip Holder

130-4500

Three universal cavities hold evacuation tips. Mounts under either side, swings out from beneath the table, and rotates, so tips present toward the field during the case and tuck away before the table moves.

Power Strip

130-4496

Four medical-grade outlets bring power to the surgical site, with caps keeping each unused outlet clean. Mounts to either side or the back, with an integrated cord wrap that keeps the fifteen-foot cord off the floor.

Discover MTI's Full Family of Products

MTI is dedicated to crafting high-quality procedure and exam chairs, cabinets, and accessories for a variety of medical and dental specialties. Explore how our equipment can enhance and modernize the care experience for both patients and practitioners.

Oral/Dental Surgery Chairs

Our patent-pending arm system holds the patient securely while opening the field for the surgeon and assistants, and the locking headrest keeps the head exactly where you set it. The 729 adds a power knee-break leg rest for safer entry, exit, and post-sedation recovery.

Exam and Procedure Chairs

Our exam/consult chairs open clear access from every side, hold the head securely in the position you set, and tilt the patient into the right plane for the exam. The patient stays comfortable and steady; you stay focused on the evaluation.

Cabinets

Our mobile cabinets bring everything to the chair and keep it organized in drawers with optional molded inserts so your team finds what they need quickly and without leaving the patient. Available in seated and standing working heights.

Stools and Side Chairs

Designed to seamlessly complement your waiting and exam rooms, our chairs can be upholstered to match your existing MTI products, providing a consistent and cohesive look throughout your space.
