What makes MTI Chairs Your Best Option?

MTI's products are designed with specialists in mind. We have spent more than 20 years listening to doctors and caregivers to engineer our equipment to meet their needs. Our chairs are not only more comfortable for patients, but for caregivers as well. MTI exam/procedure chairs and equipment help to lower operating costs, increase practice safety, and improve patient outcomes.

Ultra quiet DC motors are 30% faster and at 725 lb rating, our latest chairs have an unmatched patient capacity.

Available hand and foot controls with sealed membrane for easy cleaning and disinfecting.

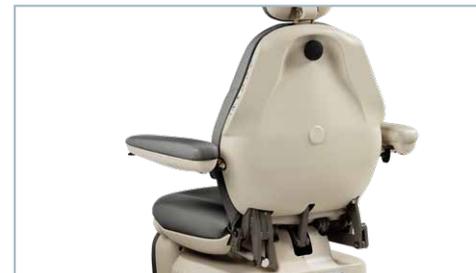

The soft and sleek design defines luxury and provides superior patient access with a thin and tapered backrest.

Customizable Ophthalmic Headrest adjusts and locks firmly in place with just a 1/4-turn in just seconds.

Supported by a welded steel frame with maintenance-free joints and unsurpassed strength supporting a patient capacity of 725 lbs.

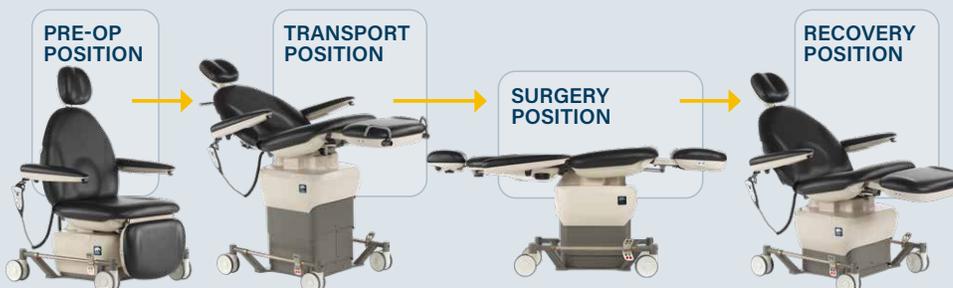

A fundamental advantage to MTI's products is the tapered back section which allows easier access to the patient's head and neck area with less strain on the caregiver.

ADA Compliant 18.75" entry height with 7" automatic power footrest extension and extend/retract buttons for independent movements.

Increase Throughput with the 840 Workflow Concept

An efficient workflow starts with a streamlined process. MTI's 840 Stretcher Bed helps you optimize your workflow to provide the best patient and caregiver experience possible while quality care remains constant.

ADA Compliance

Click or scan QR code to learn more.

ADA Regulations Protect Patients and Care Providers By Avoiding Injuries and ensure accessibility to, and usability of diagnostic equipment by patients with disabilities.

MTI makes the only ADA-compliant M302 chairs on the market today which can help reduce patient and provider injury and distress with lower entry heights, advanced control features and functionalities. Elevate your patient and caregiver experiences with increased safety and comfort with MTI's technology-rich, intuitive, ADA compliant chairs.
