PODIATRY & WOUND CARE SPECIALTY PRODUCTS
When Jeff Baker founded Medical Technology Industries, Inc. DBA MTI, Inc. he had already worked in the healthcare field for over 26 years. His time as vice president of The HealthChair® Group’s DMI® medical division, and years of experience in PDM®, The HealthChair® Group’s podiatry division, prepared him for his new venture as he launched MTI in 1999.

Armed with the knowledge of his customers’ needs and desires, Baker founded MTI to make and sell high-quality patient and physician oriented seating and cabinetry, along with other accessories. MTI designed its first podiatry chair the same year the company was founded, followed by a complete line of cabinetry and surgery chairs for otolaryngology.

MTI’s success and rapid growth led to the construction in 2005 of a technology-rich 50,000 square-foot manufacturing facility. The building includes green technology, including computer-controlled high-efficiency cooling and heating systems, low-E glass windows, central plenum ceilings, and additional wall and ceiling insulation.

Always looking to the future, MTI is committed to continually produce high-quality and competitively priced products while remaining dedicated to customers, associates, and the community. MTI strives to remain at the forefront of the industry by employing qualified and well-trained associates, listening to customers’ needs and desires, and never losing the thirst for success.
Why buy MTI?

- PRODUCTS DESIGNED FOR THE SPECIALIST
- INDUSTRY LEADER
- RUGGED CONSTRUCTION
- SUPERIOR BASE DESIGN
- VELCRO®-ATTACHED UPHOLSTERY
- LOW-VOLTAGE OPERATION
- UNSURPASSED CUSTOMER SERVICE
- AFFORDABLE PRICE
- TECHNOLOGICALLY ADVANCED PRODUCTS
- CUSTOMER FOCUSED

pg. 30
MTC Series Cabinets
Mobile treatment cabinets are available in various drawer/door, height, depth, and color configurations.

LED Exam Lights
Three different LED models available in either a caster base, floor stand, or chair-mounted version.

Side Chairs
Seat your patients and guests on MTI’s comfortable side chairs.

Stools
Hand or foot operated stools with available with various back and seat configurations.
MTI Model 527
Tri-Power Podiatry/Wound Care Chair

Power lift, back and tilt functions

MTI’s 527 Tri-Power Podiatry/Wound Care Chair (non-knee break) provides comfort to your patients with a low entry height of 19” (48.3 cm), making it easy and safe for your patients to enter and exit the chair—even from a wheelchair.

Vertical travel of 20” (50.8 cm) brings your patients up to the highest operating heights. The ultra comfortable 24” (60.9 cm) wide seat and 25” (63.5 cm) wide foot section makes it one of the widest chairs on the market today. It also features an industry-leading 650 lb (295 kg) rated lift function capacity.

Sliding Removable Floating Arms™ lock in the entry/exit positions and provide security for you and your patients. An under-arm locking tab makes it easy to slide the arm back to provide a hand-hold surface for a secure and easy ingress and egress.

The 527 is available in two models; the 527P Programmable model offers two user programmable positions and an auto return function, while the 527S non-programmable model is standard with MTI’s semi-auto “position switch,” plus an auto return function. A hand control or foot control can be had in lieu of each other or optionally together.

*Patented
**527 features**

- 19” (48.3 cm) entry height with 20” (50.8 cm) vertical travel power lift base
- Ultra quiet 24-volt low-voltage DC electric gear motors
- Power lift, back and tilt functions (non-knee break)
- 650 lbs. (295 kg) lifting capacity
- 24” (60.9 cm) maximum width, 25.5” (64.8 cm) foot section
- Locking slide back Floating Arms™
- Stainless steel debris tray (10 1/4” x 14 7/8” x 2” [26 cm x 37.8 cm x 5.1 cm]) extends a full 12” (30.5 cm) using KTL Cataphoresis coated slides
- Footrest extension adjustment with dual locks
- All steel frame and cushion substrates
- Seamless Premium Upholstery and Designer UltraLeather™ Upholstery (optional memory foam available for design upholstery)
- Choice of foot control or remote hand control with auto return, stop/cancel, and any button cancellation
- Standard two (2) position programmability (527P only)
- Rapid position switch (527S only)
- Fire barrier material option available to comply with California Technical Bulletin 133
- Listed to UL 60601-1, CAN/CSA C22.2 No. 6011-M90, and IEC 60601-1

From upright to reclined, the MTI 527's can do it all.

Footrest extension adjustment with dual locks are located on both sides at the end of the footrest. Both the stainless steel debris tray and footrest extend 12” (30.5 cm) using KTL Cataphoresis coated slides and each support up to 200 lbs (90.7 kg) individually extended.

With a minimum entry height of 19” (48.3 cm) and an extended height of 38.3” (97.3 cm) the 527's afford easy entry for elderly or disabled patients, while providing extended heights for even the tallest of operators.

From upright to reclined the MTI 527's can do it all.

Removable Leg Wrapping Support*

The patent pending leg wrapping support is a dual function support providing a calf support for wrapping the foot/heel and a heel support for wrapping the rest of the leg.

The removable leg wrapping support is made from aluminum for a light-weight yet very strong support and is non-porous coated for ease in cleaning and disinfecting.

The support can easily be moved to either the patient’s left or right hand side of the foot section for ease of wrapping either leg or heel. *Patent Pending
MTI Model 527W
Tri-Power Bariatric
Podiatry/Wound Care Chair

Power lift, back and tilt functions

Help maintain your bariatric patients' dignity and provide a safe and comfortable examination/treatment platform with the MTI 527W Bariatric Chair (non-knee break).

With a low entry height of 19” (48.3 cm), the 527W makes it easy and safe for your largest patients to enter and exit the chair, even from a wheelchair. A 20” (50.8 cm) vertical rise brings your patients up to the highest operating heights. The ultra comfort 30” (76.2 cm) wide seat and 31” (78.7 cm) wide foot section makes it one of the widest bariatric chairs on the market today, and boasts an industry-leading 800 lb (363 kg) rated lift function capacity.

Slide-back Removable Floating Arms™* lock in the entry/exit positions and provide security for you and your patients. The under-arm locking tab makes it easy to slide the arm back to provide a hand-hold surface for a secure and easy ingress and egress.

The 527W is available in two models: the 527WP Programmable model offers two user programmable positions and an auto return function, while the 527WS non-programmable model is standard with MTI's semi-auto ‘position switch,’ plus an auto return function. A hand control or foot control can be had in lieu of each other or optionally, together.

MTI Model 530 Quad-Power Podiatry/ Wound Care Chair

Power lift, back, tilt and foot functions

Provide a safe and comfortable examination/treatment platform with the MTI 530 Power Chair.

With the MTI 530 Quad-Power Chair, your patients can get comfortable with a full 24” (61 cm) width and an articulating power footrest, making it easy and safe for your largest patients to enter and exit the chair, even from a wheelchair. Four user-programmable positions assure rapid movement to often used positions.

The 530 has a seating surface which goes all the way down to 21.5” (54.6 cm) and a 16” (40.6 cm) vertical rise brings your patients up to the right operating heights, and the 530 features an industry-leading 650 lb (295 kg) lift function capacity.

Slide-back Removable Floating Arms™ lock in the entry/exit positions and provide security for you and your patients. The under-arm locking tab makes it easy to slide the arm back to provide a hand-hold surface for a secure and easy ingress and egress.

The headrest can be extended 6” (15.2 cm) and can be removed. Optional headrests available for other specialties.

*Patented and Patent Pending
21.5” (54.6 cm) entry height with a 16” (40.6 cm) vertical travel power lift base

• Ultra quiet 24-volt low-voltage DC electric gear motors

• Power lift, back, tilt and foot functions (footrest does not extend)

• 650 lbs (295 kg) lifting capacity

• 24” (61 cm) maximum width of chair

• Non-articulating rectangular headrest

• 10 1/8” x 14 1/2” x 2 1/2” (25.7 cm x 36.8 cm x 6.4 cm) stainless steel debris extends a full 12 inches (30.5 cm) using KTL Cataphoresis coated slides

• All steel frame and cushion substrates

• Smooth Velcro®-attached upholstery in standard foams (optional memory foams and Ultraleather™ styles available)

• Choice of foot control, remote hand control, or back mounted hand switches* with auto return, stop/cancel, and any button cancellation *Factory installed only

• Standard four (4) position programmability allows you to automatically put the 530 into your most frequently used positions with the simple touch of a button

• Fire barrier material option available to comply with California Technical Bulletin 133

• Listed to UL 60601-1, CAN/CSA C22.2 No. 6011-M90, and IEC 60601-1

MTI Model 450
Quad-Power Podiatry/Wound Care Chair

Power lift, back, tilt and foot functions

The 450 Quad-Power Chair is technologically advanced to provide healthcare workers and patients with increased safety and strength in patient care. Four (4) synchronous power motors provide superior technology for lift, back, tilt and foot functions with an industry-leading 650 lbs. (295 kg) rated lift function capacity.

MTI is set further ahead of the competition with durable and long-lasting all steel frame construction. Motor safety technology includes electronic current sensing with ultra-quiet, smooth and reliable 24-volt DC motors to ensure safe patient movement and precise positioning. Patient access and comfort is enhanced with a minimum seat height of 19” (48.3 cm), seat section 24” wide x 21.5” deep (61 cm x 54.6 cm) with an overall maximum length of 83.5” (212.1 cm).

Comfort is extended with an articulating rectangular headrest with a form fitting backrest and choice of Seamless Premium Upholstery or Designer Ultraleather™ Upholstery with Memory Foam. Economics is enhanced with a programmable foot control with auto return included with each chair. An optional hand control is also available.

The 450 Chair is available in a low model (19’ [48.3 cm]) or high model (21’ [53.3 cm]) entry height with 11.5” (29.2 cm) or 16” (40.6 cm) of vertical travel, respectively.

The 450 is also available in a mobile base or swivel base version.
450 features

- Low model (19" [48.3 cm]) or high model (21" [53.3 cm]) entry height
- Ultra quiet 24-volt low-voltage DC electric gear motors
- Power lift, back, tilt and foot functions (footrest extends)
- 650 lbs (295 kg) lifting capacity
- 24" (61 cm) maximum width, 23.5" (59.7 cm) foot section
- LED operational safety sensor
- Easy-glide, rotary-dampened, extendable footrest with built-in LED safety sensor that detects interferences between the chair and the floor or other objects.
- Floating Arms™ mechanism (arms not included)
- Rectangular articulating headrest
- All steel frame and cushion substrates
- Choice of Velcro®-attached Designer Ultradeather™ upholstery with memory foam or Seamless Premium upholstery
- Foot control with four (4) user-programmable positions with auto return, stop/cancel, and any button cancellation
- Optional hand control available
- Fire barrier material option available to comply with California Technical Bulletin 133
- Listed to UL 60601-1, CAN/CSA C22.2 No. 6011-M90, and IEC 60601-1
**450 Chair Accessories**

**Removable Debris Tray**

The Removable Debris Tray can be inserted into splines (standard feature) attached to the footrest for convenient wound care while providing patient and healthcare worker safety. Tray can articulate to any desirable position.

**Removable Leg Wrapping Support**

The patent pending leg wrapping support is a dual function support providing a calf support for wrapping the foot/heel and a heel support for wrapping the rest of the leg.

The removable leg wrapping support is made from aluminum for a light-weight yet very strong support and is non-porous coated for ease in cleaning and disinfecting.

The support can easily be moved to either the patient’s left or right hand side of the foot section for ease of wrapping either leg or heel.

*Patent Pending

The 450W is also available in a mobile base or swivel base version.
Model 450W Power Table shown with standard seamless upholstery and optional Removable Floating Arms™.

450W features

- Low model (19” [48.3 cm]) or high model (22” [55.9 cm]) entry height
- Ultra quiet 24-volt low-voltage DC electric gear motors
- Power lift, back, tilt and foot functions
- 800 lbs (363 kg) lifting capacity
- 30” (76.2 cm) maximum width, 30” (76.2 cm) foot section
- LED operational safety sensor
- Easy-glide, rotary-dampened, extendable footrest
- Foot-founted splines for leg wrapping support
- Floating Arms™ mechanism (arms not included)
- Trapezoid articulating headrest
- All steel frame and cushion substrates
- Choice of Velcro®-attached Designer Ultraleather™ upholstery with memory foam or Seamless Premium upholstery
- Foot control with four (4) user-programmable positions with auto return, stop/cancel, and any button cancellation
- Optional hand control available
- Fire barrier material option available to comply with California Technical Bulletin 133
- Listed to UL 60601-1, CAN/CSA C22.2 No. 6011-M90, and IEC 60601-1

Positions from upright to contour flat and trendelenburg are easily attained with the power lift, back, tilt, and foot functions of the MTI 450 Power Table.

Easy-glode, rotary-dampened extendable footrest with built-in LED safety sensor that detects interferences between the chair and the floor or other objects.

Swell base version with designer upholstery style.

Mobile base version with seamless upholstery style and optional Floating Arm™ configuration.

Positions from upright to contour flat and trendelenburg are easily attained with the power lift, back, tilt, and foot functions of the MTI 450 Power Table.
**MTI Model 450W Quad-Power Podiatry/Wound Care Table Specifications***

- **Maximum lifting capacity**: 800 lbs (363 kg)
- **Minimum Seat Height**: 20” (50.8 cm)/22” (55.9 cm)
- **Maximum Seat Height**: 30.5” (77.5 cm)/37” (94 cm)
- **Maximum Vertical Elevation**: 11.5” (29.2 cm)/16” (40.6 cm)
- **Maximum Trendelenburg**: 30˚
- **Foot Section**: 29.5” wide x 14.5” long (74.9 cm x 36.8 cm)
- **Seat Section**: 30” wide x 21.5” long (76.2 cm x 54.6 cm)
- **Back Section**: 30” contoured to 27” wide x 23” long (76.2 cm contoured to 68.6 cm wide x 58.4 cm long
- **Electrical**: 115/60, 4 amps 230/50, 2 amp
- **Table weight (Std base)**: 389 lbs (176 kg)
- **Table weight (Mobile base)**: 402 lbs (182 kg)
- **Table weight (Swivel base)**: 433 lbs (196 kg)
- **Table shipping weight**: An additional 71 lbs. (32.2 kg over model table weight
- **Table shipping size** (Standard, Swivel): 80” x 36” x 31” (203.2 cm x 91.4 cm x 78.7 cm)
- **Table shipping size (Mobile)**: 48” x 48” x 53” (121.9 cm x 121.9 cm x 134.6 cm)
- **Uph. Kit shipping weight**: 31 lbs (411 kg)
- **Uph. kit shipping size**: 47” x 6” x 34” (119.4 cm x 203 cm x 86.4 cm)

**450W Table Accessories**

- **Removable Debris Tray**
  - The Removable Debris Tray can be inserted into splines (standard feature) attached to the footrest for convenient wound care while providing patient and healthcare worker safety. It may also be articulated into any position.

- **Removable Leg Wrapping Support***
  - The patent pending leg wrapping support is a dual function support providing a calf support for wrapping the foot/heel and a heel support for wrapping the rest of the leg.

  - The removable leg wrapping support is made from aluminum for a light-weight yet very strong support and is non-porous coated for ease in cleaning and disinfecting.

  - The support can easily be moved to either the patient’s left or right hand side of the foot section for ease of wrapping either leg or heel.

*Patent Pending

**Base Rails (mount multiple accessories to rail including accessory rail bracket)**

**Accessory Rail Mount Bracket**
Removable Leg Wrapping Support (RLWS)*
 Avoid health care professional injury by using MTI’s patent pending leg wrapping support.

The patent pending leg wrapping support is a dual function support providing a calf support for wrapping the foot/heel and a heel support for wrapping the rest of the leg. It is available in a chair mounted and portable version.

The removable leg wrapping support is made from aluminum for a light-weight yet very strong support and is non-porous coated for ease in cleaning and disinfecting.

The support can easily be moved to either the patient’s left or right hand side of the chair’s foot section for ease of wrapping either leg or heel. A 12” (30.5 cm) extension adjustment accommodates even the tallest of patients.

Portable Leg Wrapping Support*

Light-weight yet strong, this portable support simplifies the wrapping of the leg or foot no matter where you use it. The mobile leg support folds-up into a compact unit for mobile applications. Take it in its carry bag with you anywhere: home, hospital, or on the road. *Patent Pending

DV Dust Vac™

The free standing DV-1 Dust Vac™ uses a high volume vacuum motor and a large diameter hose and tip for up to 40% greater air flows at the drill tip. This large volume of ‘directed’ vacuum can remove more dust particles than other systems and can eliminate particles down to 0.1 micron when equipped with an optional filter bag and disk.

Adaptor kits available for Dremel, Wizard, Aseptico, and other hand drills.

- 6” wide x 8” deep x 13” high
- Weight: 7 lbs (3.2 kg)
- Electrical: 115V/60hz 9.6 amps
Mobile Treatment Cabinets

The MTI MTC Series of cabinets feature European styling with appealing rounded side panel edges and molded handles, premium industrial wood components and Wilsonart Crystal color laminate outside and melamine laminated inside.

Standard features include: Choice of 22” (55.9 cm) deep or 18” (45.7 cm) deep counter top*, four hard rubber casters, laminate inside and out. European drawer construction and hinge hardware. 3 mm drawer/door edge molding, resilient counter top edge guard, choice of Crystal or Black counter top and backwall, and choice of one of MTI’s seven Standard Laminate Cabinet colors for the doors and drawers.

Other options are available such as lift up shelf, recessed dirty instrument trays, drawer locks, and more.

Optional 3 and 4 cavity plastic molded drawer inserts available.

Side Chairs

The MTI 301 Side Chair without arms and the MTI 302 Side Chair with arms complete your office in the same or a different décor than your other MTI exam room furniture. Available in MTI’s Premium Upholstery and Ultraleather™ material as well as special colors and fabrics. Also available in TB133 construction to meet CAL133 requirements.

- Contoured seat and backrest for a comfortable and sturdy support
- Adjustable leveling feet
- Legs that kickback preventing the chair from damaging the wall
- Black steel tubular frame
- 400 lb (181.4 kg) weight capacity

*MTCDV-2 is only available in the standard 21” (53.3 cm) deep model
Green Lights

The benefits of energy-efficient lighting.

LEDs are much more energy efficient, using up to 50% less power than halogen lights and reducing cost for practice and hospitals

- Lower electricity bills
- Improve lighting quality and worker productivity
- Reduce maintenance and replacement costs with long life
- Contribute to a cleaner, safer environment
- Produce nearly no heat for greater patient/professional comfort

According to the EPA if energy-efficient lighting was used everywhere it was profitable, electricity demands for lighting would be reduced by 50 percent and aggregate national electricity requirements would be cut by 10 percent. Energy savings would exceed $12 billion a year while decreasing air pollution by five percent. This would be equivalent to taking 15 million cars off the road resulting in less smog, acid rain and a slowing of global climate change (www.energystar.gov)

**Lumerus™**

- Head size of 2.25” (5.7 cm)
- 70,000 hour rated LEDs
- 4100°K ±300°K
- Light Intensity @ 16’ (406 cm)
  24800 lux (2300 fc)
- Spot Size @ 16’ (406 cm)
  5’ (12.7 cm) dia
- 5-year limited warranty

**Claurs 4™**

- Head size of 3’ (76 cm)
- 40,000 hour rated LEDs
- 4300°K ±300°K
- Light Intensity @ 12’ (305 cm)
  21500 lux (2000 fc)
- Spot Size @ 12’ (305 cm)
  3’ (76 cm) dia
- 2-year limited warranty

**Clarus 7™**

- Head size of 35’ (89 cm)
- 40000 hour rated LEDs
- 4300°K ±300°K
- Light Intensity @ 16’ (406 cm)
  33400 lux (3100 fc)
- Spot Size @ 16’ (406 cm)
  8’ (203 cm) dia
- 2-year limited warranty

The Lumerus™ light also available in chair post-mounted version.

Each Light is available in a caster base and floor stand version.

LED Lights

System Two LED Surgery Light*
- 25.5” diameter (648 mm) light head
- 130,000 lux output at 1 meter
- 5 stage dimming control from sterile handle
- 9” (229 mm) - 14” (356 mm) adjustable light pattern
- 4200° (−/+300) Kelvin color temperature
- 60 LED’s rated at 50,000 hours
- Voltage is 100-240V

MI 1000 LED Procedure Light*
- 16” (406 mm) diameter light head
- 100,000 lux output at 1 meter
- 5 stage dimming control from a sterile handle
- On/Off button on sterile handle
- 4300° Kelvin color temperature
- 36 LED’s rated at 50,000 hours
- Voltage is 100-240V

MI 750 LED Procedure Light*
- 14.5” (368 mm) diameter light head
- 50,000 lux output at 1 meter
- 3 stage dimming control from a sterile handle
- On/Off button on sterile handle
- 4300° Kelvin color temperature
- 12 LED’s rated at 50,000 hours
- Voltage is 100-240V

MI 500 LED Exam Light*
- 6” (150 mm) diameter flood pattern at 24” (61 cm)
- 43,000 lux output at 24” (61 cm)
- 4300° Kelvin color temperature at 24” (61 cm)
- 8 LED’s rated at 50,000 hours
- Voltage is 100-240V

*3-year parts limited warranty

Physician/Assistant Seating

Many seating chairs and options are available. Please see additional brochure for physician and assistant seating.

MTI's SG 5-caster stool with two way adjustable ergonomic back support provides a comfortable seat and adds elegance to any exam room. Available in two operating heights:

High Model
215’ - 2875’ (54.6 cm - 73 cm)

Low Model
175’ - 225’ (44.5 cm - 57.2 cm)

EG13721 Pneumatic Hand Operated Chair with Ergonomic Back and Curved Body Support

FG5121 Pneumatic Foot Operated Chair with 4-way Adjustable Back

HY42422 Hydraulic Foot Operated Surgery Chair with Twin Arms
527, 527W, 526 CHAIRS

*Add 6.5" (16.5 cm) for 527W Dimensions

1. With foot section extended the chair is 86.5" (220 cm) long. With foot section and debris tray extended the chair is 96.5" (245 cm) long.

527, 527W, 526 CHAIRS

*Not applicable to 526 Chair
†With full tilt, footrest is 36" (91.4 cm) from the floor.

530 TABLE

1. Extending headrest will add approximately 6" (15.2 cm). With debris tray extended, the chair is 81" (206 cm) long. Footrest does not extend.

530 TABLE

1. Extending headrest will add approximately 6" (15.2 cm). With debris tray extended, the chair is 81" (206 cm) long. Footrest does not extend.
450 CHAIR

1. The headrest extension adds up to 6 in [15.2 cm]
2. Optional 3 foot power cord with 90° plug available
3. 115V x 4 amps and 230V x 2 amps options available
4. Swivel base option adds 1.75 in [4.4 cm] to overall height
5. Dimension measured in a compressed upholstery state
6. For 450H model chair dimensions are 21.0 in [53.3 cm] Min and 37.0 in [94.0 cm] Max
7. For 450H model chair dimensions are 45.5 in [115.7 cm] Min and 61.5 in [156.2 cm] Max
8. For 450H model chair dimensions are 54.0 in [137.2 cm] Min and 70.0 in [177.8 cm] Max
9. Upholstery related dimensions may vary from those shown up to .25 in [.6 cm]
10. The footrest extension adds up to 9.5 in [24.1 cm]

450W TABLE

1. The headrest extension adds up to 6 in [15.2 cm]
2. Optional 3 foot power cord with 90° plug available
3. 115V x 4 amps and 230V x 2 amps options available
4. Swivel base option adds 1.75 in [4.4 cm] to overall height
