¹It is the customer's responsibility to order products to meet local regulations

²Meets specification when TB133 option for upholstery is purchased

Cleaning & Disinfection

MTI's standard policy on disinfecting medical equipment is to use a solution with a 10% sodium hypochlorite (bleach) and 90% water (1:10 ratio)³. For premixed disinfectant options, see MTI Suggested Disinfectants Policy downloadable at www.mti.net/DisinfectantsPolicy

³See current CDC guidelines for Disinfection and Sterilization in Healthcare Facilities

Colors in this brochure are as closely represented as possible. However, due to the nature of monitors, printed material, and dye lots, the nature of the actual products may differ slightly from how they appear.

For more information contact MTI. Call us at (800) 924-4655 (US & Canada) or (801) 875-4999 (International) or visit us at www.mti.net.
