

Upgrade to the fully-powered

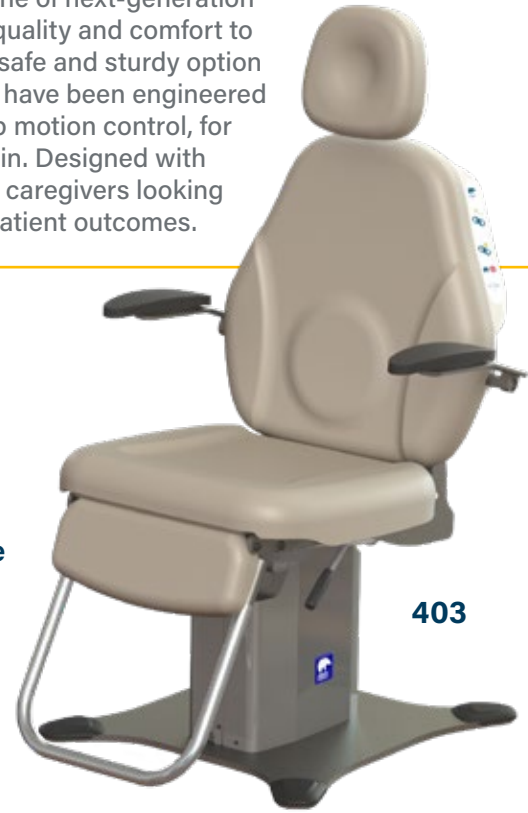

MTI 461 & 403 Exam Chairs

The 461 and 403 Exam Chairs are the latest innovation in MTI's line of next-generation exam chairs. These fully-powered programmable chairs deliver quality and comfort to patients and caregivers at a more economical price. They offer a safe and sturdy option with excellent patient access for caregivers. Each of these chairs have been engineered with powered lift and back functions, featuring Soft Start/Stop motion control, for smoother patient experiences and decreased caregiver strain. Designed with specialists' needs in mind, the 461 and 403 are the answer to caregivers looking for a quality, comfortable, fully-powered chair to improve patient outcomes.

461

403

- Fully-powered exam chairs ease caregiver strain
- Cost-efficient alternative to manual chairs
- Manually actuated 323° swivel
- 550 lb patient capacity
- 2 dynamic user-programmable buttons and home button
- Low-profile base plate improves safety and stability
- Designed for patient accessibility
- Smooth lift and recline movements for better patient experiences

The 461 reclines to flat position with 5° of decline

The 403 back reclines to flat position with 5° of decline

The powered back with coordinated footrest on the 461 supports the patient as backrest reclines

EasyView™ chair back mounted membrane hand switches come standard on both the 461 and 403 Exam Chairs

The sturdy looped footrest remains at comfortable fixed angle on the 403 to support patients' feet

Tapered back on 461 provides easier access to patients & comes with articulating oval headrest

Flip-up floating arms on the 461 and 403 provide easy ingress and egress for patients

Tapered back on 403 provides easier access to patients & comes with non-articulating oval headrest

How do the MTI 461 & 403 Chairs Compare?
